

# State of Nevada Bureau of Federal Facilities

Version Date: 10/16/2013

## **2009020 Agreement in Principle (AIP) Files**

Reviewed: 7/22/2009

Description: These records are used to monitor the environmental, safety and health oversight activities at the NTS (Nevada Test Site) that do not fall under the FFACO. The record may include but is not limited to: Safe Drinking Water; Water Pollution Control; Corrective action documentation (including investigations); Low-Level and Mixed Low-Level Wastes; RCRA permits; Monitoring reports; Annual and quarterly reports (see AIP #19); Supportive documentation and; Related correspondence

Retention: Retain these records for a period of twenty (20) calendar years from the date the case was closed.

Disposition: Permanent: Transfer to State Archives

## **2009012 FFACO: General Files**

Reviewed: 7/22/2009

Description: These records are used to monitor the program that identifies sites of historic contamination and implements corrective actions at federal facilities under the Federal Facility Agreement and Consent Order (FFACO). The record may include but is not limited to: FFACO agreement documentation; Quality assurance project plan; Sampling and analysis plan; Work plan; Fluid management plan; Waste management plan and; Supportive documentation

Retention: Retain these records for a period of twenty (20) calendar years from the date the plan or file was superseded.

Disposition: Permanent: Transfer to State Archives

## **2009013 FFACO: Industrial Site Files**

Reviewed: 7/22/2009

Description: These records document the investigation, monitoring and corrective actions taken relating to federal facilities and lands in Nevada used in direct support of nuclear testing operations (See FFACO, Appendix VI, Section 1.0). The record may include but is not limited to: Facility descriptions; CAU (Corrective Action Unit) investigations; Public involvement plan; Corrective action strategy (including modifications) and; Supportive documentation

Retention: Retain these records for a period of twenty (20) calendar years from the date the CAU (Corrective Action Unit) was closed or from the date the post-closure monitoring was completed.

Disposition: Permanent: Transfer to State Archives

## **2009025 FFACO: Off-Site Files**

Reviewed: 7/22/2009

Description: These records are used to identify and implement a monitoring system under the FFACO for groundwater contamination from underground nuclear testing activities at the two Nevada Off-Sites. The record may include but is not limited to: Regional Evaluations; Sampling and Analysis results; Contamination characteristics; Computer modeling; Process validation; Related correspondence and; Supportive documentation

Retention: Retain these records for a period of twenty (20) calendar years from the date the CAU (Corrective Action Unit) was closed or the date the post-closure monitoring was completed, whichever is later.

Disposition: Permanent: Transfer to State Archives

## **2009014 FFACO: Soil Site Files**

Reviewed: 7/22/2009

Description: These records document the analysis of the contamination of surface and subsurface soils under the FFACO (See Appendix VI, Section 1.0). The record may include but is not limited to: Site descriptions; Sampling and monitoring requirements; Drilling and subsurface sampling data; Evaluations and; Supportive documentation

Retention: Retain these records for a period of twenty (20) calendar years from the date the CAU (Corrective Action Unit) was closed or from the date the post-closure monitoring was completed.

Disposition: Permanent: Transfer to State Archives

## **2009015 FFACO: Underground Test Area Files**

## **State of Nevada Bureau of Federal Facilities**

Version Date: 10/16/2013

Reviewed: 7/22/2009

Description: These records document the identification and implementation of a monitoring system under the FFACO for groundwater contamination from historic underground nuclear testing. The record may include but is not limited to: Regional evaluations; Sampling and Analysis results; Contamination characteristics; Computer modeling; Process validation and; Supportive documentation

Retention: Retain these records for a period of twenty (20) calendar years from the date the CAU (Corrective Action Unit) was closed or from the date the post-closure monitoring was completed.

Disposition: Permanent: Transfer to State Archives

### **2009019 Nevada Test Site (NTS), Bureau of Federal Facilities (BFF): Historical General Files**

Reviewed: 7/22/2009

Description: These records provide an overall history of the establishment and operation of the BFF in regards to the historic nuclear testing at the NTS (Nevada Test Site), the TTR (Tonopah Test Range) and off-site locations in Nevada. The record may include but is not limited to: Environmental Restoration Inventory Sites; Federal and state documentation concerning the establishment, functions and organization of the BFF; National Priority Listings (NPL) for NTS and; Similar documentation

Retention: Review these records on a continuous basis transferring outdated documentation to the State Archives.

Disposition: Permanent: Transfer to State Archives
